

Denver Endocrinology

Co pay and deductible policy

We ask that all office visits be paid for at the time services are provided. If we participate with your insurance plan we will bill your insurance as a courtesy to you. If your Insurance plan requires a copay or a deductible we do require that those are paid at the time that service is rendered. Your insurance may require that you receive a referral from your primary care provider. If this is the case please make sure that your doctor sends that over to our office so that your visit will be paid for. If we do not receive this information, we will bill the visit directly to you. Please let us know if your insurance requires a referral and we will work with you to obtain authorization for your visit to our practice. **Please be prepared to pay your co payment or deductible every time you are seen.**

If you are not an HMO member but a PPO member please be prepared to pay for your portion of the expenses or the deductible amount that is due. If you are a self pay patient, we offer a 30 percent discount if you pay on the date of your treatment. If you are unable to pay you will need to call our self pay team and set up a payment plan. They may be able to offer a 20 percent discount.

I have read this policy and understand and accept the terms and responsibility.
