

Denver Endocrinology

WELCOME

Welcome to Denver Endocrinology. We appreciate the fact that you have chosen us to participate in your care.

We provide specialized care in the areas of thyroid and parathyroid disease, osteoporosis, metabolic disorders, diabetes, adrenal and pituitary gland disorders and reproductive disorders such as polycystic ovarian syndrome.

We look forward to seeing you in our practice. To ensure that this process moves smoothly we ask you to please follow these steps.

1. If your insurance requires a referral, please make sure that your physician has sent over a formal request for consultation as well as any pertinent medical documentation. For example: labs, office notes or radiology tests. Your physician may fax this information to our office or you can bring the information with you, we just need to make sure we have this information at your appointment.
2. Make sure you have a current copy of your insurance card with you as well as a picture ID.
3. If your insurance requires a copay you must have that with you when you come in. We take cash, check or credit card.
4. If you are on a deductible plan please be aware of this and be prepared to pay for your visit after you finish with the physician. We do offer a 30 percent discount if you pay on the same date you are seen.
5. Please make sure to bring all of your medications with you, including any over the counter medicines. If you have diabetes, please bring your glucometers and blood sugar downloads and/or logbooks.
6. Please complete the forms on this site for your visit and print them out and bring them with you.
7. If you are not able to fill out the online forms for your first visit we ask that you arrive 15 minutes early to do so.
8. If you are more than 15 minutes late for your appointment you will be asked to reschedule.
